Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representatives address the rejections on the Office action mailed January 5, 2007. Examiner agrees that the rejection under 35 USC 101 will be withdrawn under the PTO new guidelines (for the purpose of 101 issue, the practicality of the invention is established when found in either the disclosure or the claim); and the 101, 112, 1st and 103(a) rejections will be withdrawn if the claims are amended to show meaning of the claimed "real time;" e.g., "sufficiently fast to be perceived in real time as the 3D probes is moved," or "substantially at the same time as the 3D sampling probe is moved." Applicant will provide a formal response, which addresses ALL the the rejections as discussed and amends the claims as proposed; in response, Examiner will withdrawn the rejections and allow the claims if a further search yields no other related reference.
